

PHAN VĂN PHÚT

Full Stack Developer

Date of birth: 18/01/1998

Phone: 0971903655

Email: pvphuc2301@gmail.com

Address: 35/9b hẻm 35 đường 904, Hiệp Phú, Tp. Thủ Đức, Tp.HCM.

I am passionate about software development, continuously learning, and contributing to innovative projects. My goal is to create efficient, reliable, and user-friendly solutions.

Summary

I am a Web Developer with 3 years of experience in building robust and scalable applications. My expertise includes:

- Proficient in C# for backend development, skilled in building RESTful APIs and web applications using ASP.NET Core.
- Proficient in using EF for data access and ORM.
- Knowledgeable about implementing secure authentication mechanisms, including JWT
- Skilled in front-end development using JavaScript, proficient in ReactJS, basic understanding of Angular and eager to apply and expand my skills in an Angular project
- Familiar with version control using Git for collaborative development.
- Hands on working with Microservices architecture, Azure Service Bus.
- Strong grasp of OOPS concepts, dependency injection patterns, SOLID principles for writing maintainable and extensible code.

Experience
